Move Update - January 27, 2010 at 11:00 AM

Intelligent Mail® Barcode – February 18, 2010 at 2:00 PM

At the convenience of your desk, learn from Postal Headquarters Experts about the latest on Move Update requirements and the impact the Intelligent Mail® Barcode can have on your mailings.

The **Move Update** webinar will be delivered in two parts. The webinar will begin with Part A- the *basics*, including the approved methods available to comply with Move Update standards. At 11:45, Part B will provide *advanced* information which includes acceptance verification process, the applicable verification threshold, the method for calculating additional postage and accessing reports from the USPS Business Customer Gateway. Participants can register for either Part A by selecting Option A, or Part B by selecting Option B or both by selecting Option C. Participants are encouraged to attend both sessions. **Please register by January 25th.**

From saving money to tracking your mail, you will be guided through the fundamentals of using the **Intelligent Mail® Barcode**. This webinar will provide an overview while outlining the value of using the Intelligent Mail® Barcode. Intelligent Mail® is the technology platform for the next generation of postal services, features and products. Mailers and the Postal Service will place an information rich code on all individual mailpieces enabling end-to-end visibility into the mailstream. The Intelligent Mail® Barcode will create actionable information about mail for marketing, financial and operational environments. **Please register by February 12th.**

To register for either of these free webinars or for more information, please email your name, company name, address, and phone number to either Vicki.C.Lincoln@usps.gov or Lisa.j.landone@usps.gov Please put 'Webinar Registration' in the subject line
